## BREAKGLASS FEATURE

The Break Glass Feature allows you to search for any patient that you don't have instant access to.

1. Click on the padlock button to the right of the search box

2. A box will pop up and prompt you to acknowledge terms. Once this is done please either enter the patient ID OR name and date of birth then click Check Patient.

3. Under the check patient box the matching patient will appear. If this is the correct patient please click Access Patient Studies. Once this is done all of the patient's requests will appear for you. You only need to

**Access Break Glass**

This feature allows you to view studies for which you were not granted automatic access.

I understand that I am about to access information for a patient for whom I am not the primary referring physician on record. I acknowledge that I am doing so only for medical reasons and for the sole benefit of the patient, and in doing so am bound to keep this information private and confidential.

**Note:** This feature allows you to view only studies currently available on the PACS. You do not have access to studies for this patient that are acquired at a later date.

Please allow a few minutes for the studies to become available.
