RADIOLOGY**

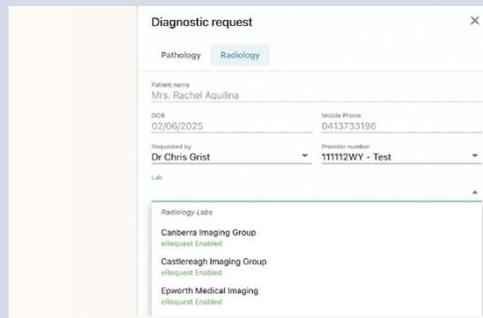

Step By Step Instructions

eRequests allows you to easily send and monitor radiology requests – giving you greater visibility over the status of your patient’s results and ensuring all information is instantly sent to South Coast Radiology, improving efficiency and convenience for your patients.

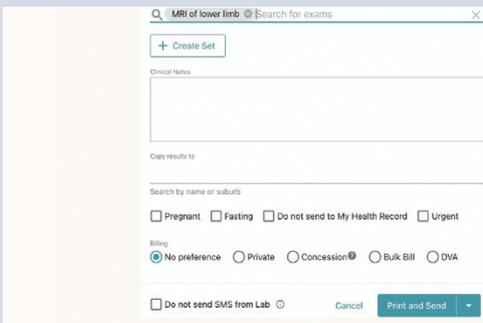

Sending & Tracking eRequests - Step by Step Guide

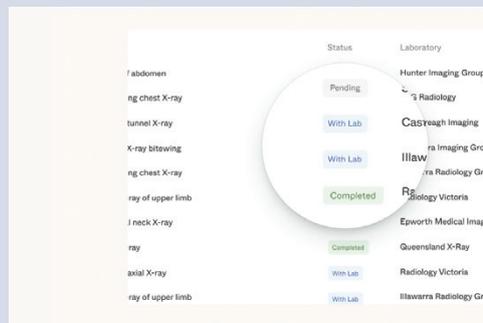

1. Add a Request: Click Add > Request from a patient’s appointment or the patient Detail window.

2. Choose Lab: Pick the lab (South Coast Radiology) from the dropdown. You can set a default if you prefer.

3. Send Request: Complete the form, then click Print and Send.

4. Track Results: View requests in Results / Letters > Diagnostic Requests or the patient’s Clinical tab.
