Paediatric (Under 16 years):	Adult Patients (16 years and over):
<p>63507 – MRI Brain</p> <p><input type="checkbox"/> Unexplained seizure(s)</p> <p><input type="checkbox"/> Unexplained headache where significant pathology is suspected</p> <p><input type="checkbox"/> Paranasal sinus pathology which has not responded to conservative therapy</p>	<p>63551 – MRI Brain</p> <p><input type="checkbox"/> Unexplained seizure(s)</p> <p><input type="checkbox"/> Unexplained chronic headache with suspected intracranial pathology</p>
<p>63510 – MRI Spine* Please indicate: <input type="checkbox"/> C <input type="checkbox"/> T <input type="checkbox"/> L <input type="checkbox"/> S</p> <p><input type="checkbox"/> Significant trauma</p> <p><input type="checkbox"/> Unexplained neck or back pain with associated neurological signs</p> <p><input type="checkbox"/> Unexplained back pain where significant pathology is suspected</p>	<p>63557, 63554 – MRI Spine</p> <p><input type="checkbox"/> Cervical spine trauma</p> <p><input type="checkbox"/> Cervical radiculopathy</p>
<p>63513 – MRI Knee* Please indicate: <input type="checkbox"/> Left <input type="checkbox"/> Right</p> <p><input type="checkbox"/> Suspected internal joint derangement</p>	<p>Adult Patients (16 years – 49 years):</p> <p>63560 – MRI Knee Please indicate: <input type="checkbox"/> Left <input type="checkbox"/> Right</p> <p><input type="checkbox"/> Following acute knee trauma with inability to extend the knee suggesting acute meniscal tear</p> <p><input type="checkbox"/> Following acute knee trauma with clinical findings suggesting acute anterior cruciate ligament tear</p>
<p>63516 – MRI Hip* Please indicate: <input type="checkbox"/> Left <input type="checkbox"/> Right</p> <p><input type="checkbox"/> Suspected septic arthritis</p> <p><input type="checkbox"/> Suspected slipped capital femoral epiphysis</p> <p><input type="checkbox"/> Suspected Perthes disease</p>	<p>Note: Each MBS item allows for three MRI's per patient per annum.</p> <p>For patients who may require intravenous contrast (CT & MRI) and the patient is over 70 years old, or has suspected or known renal impairment please supply the serum levels within previous: 3 months for stable out-patient 7 days for stable in-patient.</p> <p>Creatine: _____ eGFR= _____ Date of test: _____</p>
<p>63519 – MRI Elbow* Please indicate: <input type="checkbox"/> Left <input type="checkbox"/> Right</p> <p><input type="checkbox"/> Where a significant fracture or avulsion injury is suspected that will change management</p>	<p>Please bring this referral form at time of examination</p> <p>For Appointments: 1300 197 297 bookings@scr.com.au scr.com.au</p> <p>Thank you for choosing South Coast Radiology v01-02-26 FA4-16</p>
<p>63522 – MRI Wrist* Please indicate: <input type="checkbox"/> Left <input type="checkbox"/> Right</p> <p><input type="checkbox"/> Where scaphoid fracture is suspected</p>	

*Following radiographic examination

① How to Book?

Booking your appointment is quick and easy.

1. Scan the QR code or,
2. Visit [scr.com.au](https://www.scr.com.au) to book online

OR

1300 197 297

Call one of our friendly team members to schedule your appointment.

② Your Appointment

Date: _____

Time: _____

Clinic location: _____

Please arrive 15 minutes prior to your appointment time.

You will receive detailed preparation instructions for your appointment at the time of booking.

③ Accessing your Images

South Coast Radiology offers iVue – our free Patient App and secure digital portal giving you convenient access to your medical imaging performed at South Coast Radiology. View your images anytime from your smartphone, tablet, or web browser. Share them with your healthcare providers or family, and easily request appointments when needed. Download our free iVue Patient App via the App store on your smart phone.

Please Note: Your images will reach your account 7 days after your appointment.

④ Clinic Locations

South Coast Radiology proudly operates clinics across the Gold & Tweed Coast – including our dedicated Women’s Imaging Centre and two regional locations.

To find the clinic most convenient to you, scan the QR code to view our full list of locations.

Important Medicare Advice: Your referrer has recommended you use South Coast Radiology. You may choose another provider, but please discuss this with your referrer first.

Scan Preparation:

MRI uses a powerful magnet, and not all medical devices or implants are safe in this environment.

To ensure your safety, please review the following list.

If you answer “Yes” to any of these or are unsure, please inform our staff at the time of booking or contact

South Coast Radiology before your appointment. You may also wish to discuss these with your GP or specialist.

Do you have any of the following?

- Metal in your eye
- Cardiac pacemaker
- Epicardial wires
- Brain aneurysm clip
- I.V.C. filter
- Inner ear implant
- Claustrophobia
- Neurostimulator
- Brain shunt
- Continuous glucose monitoring devices
- Are you currently pregnant?

What to Expect:

Before Your Scan:

- You’ll complete an MRI safety questionnaire before the scan.
- Our MRI radiographer will explain the process and answer any questions.
- Jewellery must be removed, and you may be asked to change into a patient gown.
- If contrast is required, a small IV cannula may be placed in your arm.

Some patients may receive an injection to relax internal muscles to improve image quality.

During Your Scan:

- You’ll lie on your back with the area being scanned positioned in the centre of the machine.
- Staying perfectly still is essential to ensure clear images.
- The scanner is noisy – we’ll provide headphones and can play music if you’d like.
- You’ll have a buzzer to alert staff if needed, and we’ll maintain two-way communication throughout.

If contrast is used, you may feel a slight cooling sensation during injection.

After Your Scan:

You can return to normal daily activities.

A specialist radiologist will review your scan and send a report to your referring doctor.

You can also access your results via our secure online patient portal, which you can register for at your visit.
